

We offer the most reliable fibre service in South Africa.

# Fibre Direct

Fibre Direct means you receive your connectivity through fibre optic cable. We offer the most reliable fibre service in South Africa. All our Fibre Direct services come with a free Fibre via Wireless connection as redundancy. From the day your fibre is installed, cable breaks no longer affect your service. All services fail-over within seconds and your staff will not be disconnected. We offer a full range of IP services on top of your Jenny Fibre Direct.

- Future-proof: this service is scalable to 1Gbps
- Highest up time fibre
- Fail-over to Jenny Fibre via Wireless seamlessly
- 5 static public routable IP addresses
- Low contention ratio, low latency insure high Internet speeds
- Jenny Internet Service Level Agreement
