

Dedicated Wireless

Dedicated. Symmetrical. Business Internet without the cable.

Jenny Dedicated Wireless delivers fibre-grade performance with no cable in the ground. You get dedicated bandwidth that is yours alone, matching upload and download speeds, and an SLA that puts it in writing.

Why choose Jenny Dedicated Wireless?

- Symmetrical speeds. 100Mbps means 100 up and 100 down
- Dedicated bandwidth, not a share of someone else's
- SLA-backed with committed uptime
- Low latency for voice, video and cloud
- Static public routable IP included
- Continuous monitoring with automatic fault logging
- Free setup and installation
- One-week free trial for businesses

Built for business

For organisations where the connection is infrastructure, not convenience. Hosted systems, voice, multi-site operations and anything with a compliance requirement attached. Available in urban and remote areas alike, wherever fibre has not reached.

What's included

- 1 static public routable IP address
- 150 email addresses
- Additional IPs and email accounts on request
- Continuous monitoring with automatic ticket logging

Support you can rely on

7-day support, including public holidays, through our call centre, chat assistant and website. Every ticket is backed by technicians in your own country.
