

VoIP

Business calling over the connection you already have.

Jenny VoIP carries your calls over your Internet connection instead of a rented telephone line. Clear voice quality, per-second billing, free calls between your own branches, and the ability to add lines as you grow.

Why choose Jenny VoIP?

- No traditional telephone line required
- Free calls between your branches and within our network
- Per-second billing
- Easy-to-use smartphone app
- Add channels or numbers as you need them
- Voicemail, auto-attendant and call routing included
- Keep your existing number where porting is available

Built for business

For office-based, remote and hybrid teams. Direct incoming calls to sales or support, scale your phone system as your needs change, and keep working from a desk phone or a mobile. Call costs are one of the few overheads you can cut without anyone noticing.

What's included

- Cloud-based VoIP calling
- Voicemail, auto-attendant and call routing
- Mobile app support
- Free calls between Jenny VoIP accounts
- Flexible channel and number add-ons
- Per-second billing on VoIP bundles

Support you can rely on

7-day support, including public holidays, through our call centre, chat assistant and website. Backed by local technicians in your own country.
